

We know you're a **GREAT** Kitchen...
Now customers will, too!

Showcase your gluten-free training with a free **GREAT** logo on AllergyEats.com

You've done the work to bring gluten-free options to your restaurant. Now we're helping to spread the word.

The National Foundation for Celiac Awareness (NFCA) is working with the restaurant listing and review site AllergyEats, www.AllergyEats.com, to bring attention to restaurants trained through the Gluten-Free Resource Education and Awareness Training (**GREAT**) program.

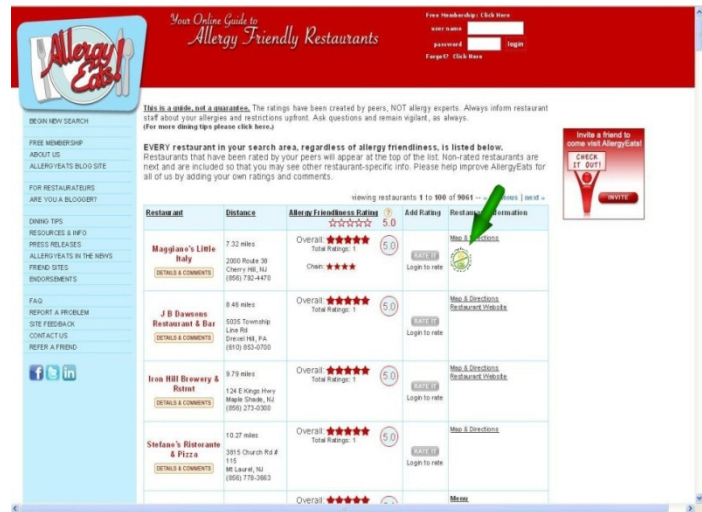

Restaurants across the country are already listed on AllergyEats. Now, **GREAT** Kitchens will stand out from the rest by featuring the **GREAT** logo on their listing.

What you get:

- **Free listing** on AllergyEats.com
- **Free GREAT logo** included in listing

What it means for your restaurant:

- **Targeted visibility** in the growing gluten-free and food allergy communities
- **Premium positioning** among competitors in your area
- **Credibility** as a dining establishment that understands gluten-free needs
- **Direct feedback** about your gluten-free menu items

It's our way to thank *you* for making **GREAT** strides in celiac and gluten-free awareness!
